Hybernská 12

Developer Ballymore Properties appointed IBA to design and project manage the redevelopment of their 10,000m² property in Hybernská, Prague 1. The mixed-use project includes retail units, offices and luxury residential apartments, and is due to start on site in the spring of 2003.

The existing internal courtyard will be glazed over to create an informal reception area with new glazed lifts giving access to the offices and apartments above. The planned restaurant will open out into the courtyard and into the renovated garden at the rear in summertime.

Bloomberg News

IBA completed the fit out of international business agency Bloomberg's new premises in Myslbek Palác, Prague 1. A central element in the design is the 240-litre tropical fish tank, a trademark feature of all Bloomberg offices. The 250m² space was formerly occupied by property consultants Jones Lang Lasalle, who also retained IBA as design and fit out consultants.

Multiplex Cinema, Letňany

Palace Cinemas' new multiplex opened for business in the second phase of the Tesco's Letňany retail development.

IBA were responsible for permitting and the local implementation of the project on behalf of UK architects Unick and engineers John Packer Associates. This commission followed on from IBA's successful involvement with Village Cinemas International's project at Černý Most, Prague.

Five years on

IBA celebrated 5 years in business in November 2002. We would like to thank to all our clients for their support and patronage during this successful period. We look forward to continued growth and success in the future and to improving our services to the benefit of all our clients.
